

New Models of Care: Promoting Health and Managing Chronic Conditions

Collaborative Practice Summit
March 4, 2009
San Antonio, TX

June Simmons, CEO
Partners in Care Foundation

Partners in Care Foundation: Mission

- Partners is a think-tank and a proving ground
- Partners changes the shape of health care by creating high-impact, innovative ways of bringing more effective clinical and social services to people and communities
- Partners' direct services test, measure, refine and replicate innovative programs and services, and bring needed care to diverse populations

Partners in Care
FOUNDATION
changing the shape of health care

Our Framework for Change

- Identify an issue that is relevant to our mission and strengths:
 - Impacts a large population
 - Causes significant suffering and harm
 - Costly – significant expenditures in place
 - Promising – opportunity for high impact through innovation
 - Proving ground available – evidence-based
 - Sustainable

Partners in Care
FOUNDATION
changing the shape of health care

The Strategic Environment: Challenges and Opportunities

- U.S. health care system is in crisis
- Failings of system are profound and widely acknowledged
- Pressure is building for transformation

Partners in Care
FOUNDATION
changing the shape of health care

High Costs and Poor Outcomes

- Spend twice any other developed country
- Ranked 37th in world on health outcomes
- 40+ million uninsured
- Little prevention/lots of expensive late care
- Growing role for community and family caregiving and self-care

Partners in Care
FOUNDATION
changing the shape of health care

80% of Health Dollars Spent on Chronic Conditions

- 31% of Americans are obese
- Adults are not physically active (28-34% aged 65-74; 35-44% aged 75+)
- Rates of obesity in children (16-33%)
- Type II diabetes skyrocketing – 40% increase in '90s. 6.9% of Americans; 20% among 65+
- Ethnic health disparities dramatic

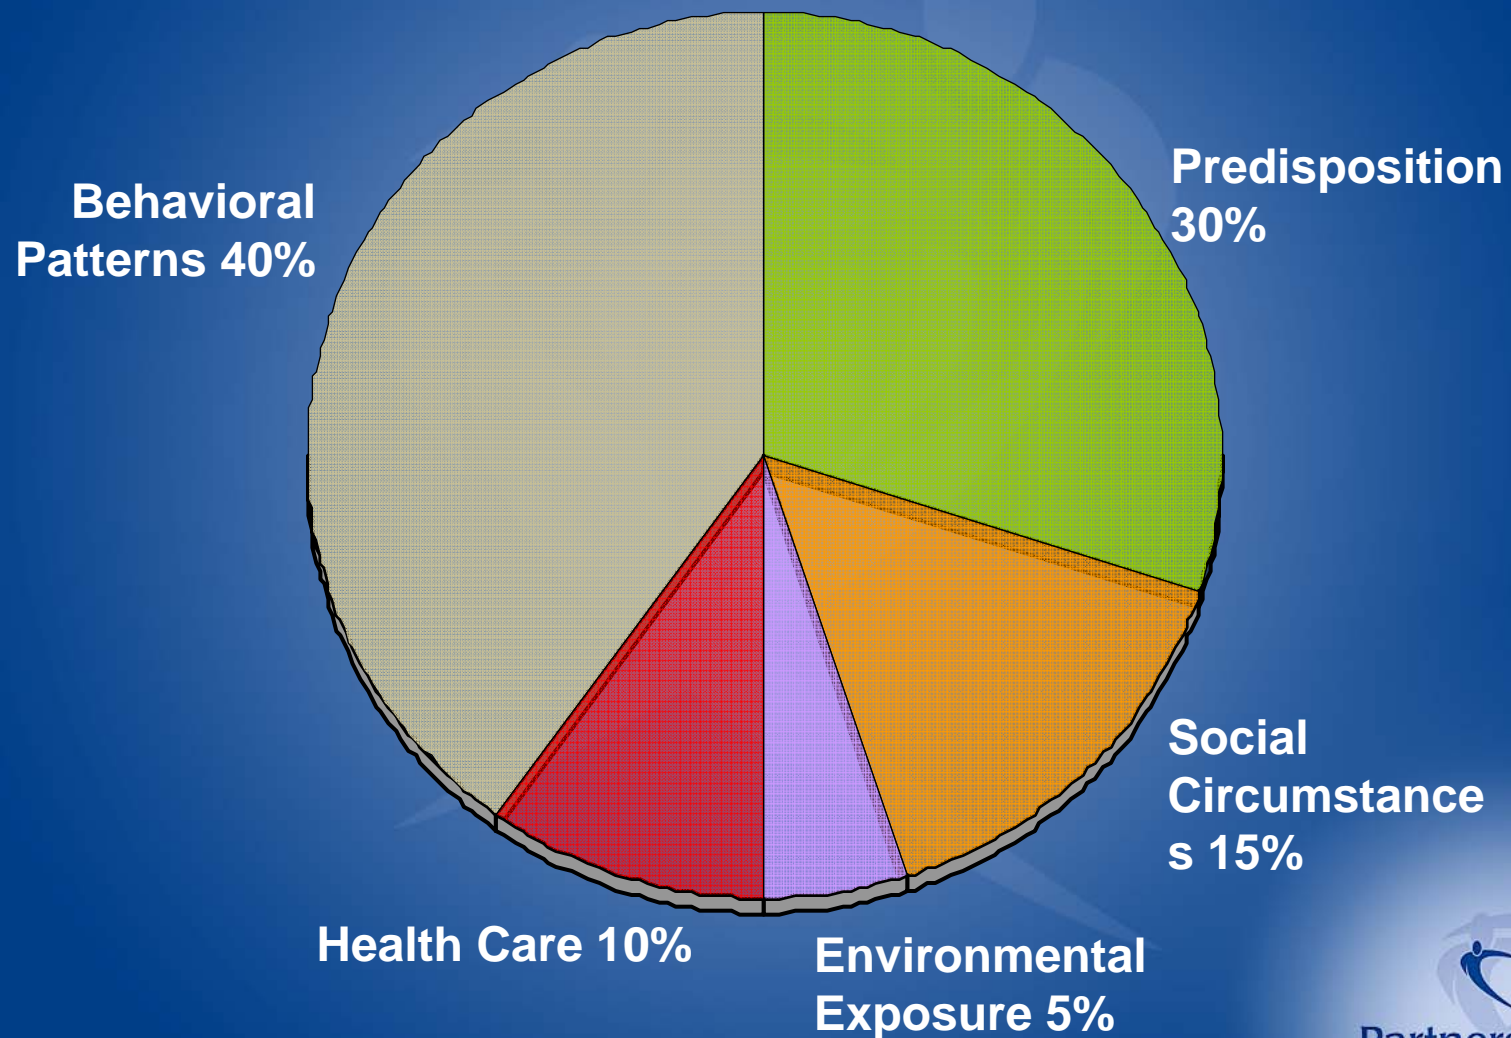

Partners in Care
FOUNDATION
changing the shape of health care

40% of Deaths in U.S. Attributed to Modifiable Risk Factors

- Smoking was king
- Obesity and lack of physical activity
- Chronic conditions result:
 - Diabetes
 - Respiratory conditions
 - Cardiovascular
 - Arthritis
 - Cancer

Determinants of Health & Contribution to Premature Death

The Scope of the Problem

- 1.7 million Americans die of a chronic disease each year
- Chronic diseases affect the quality of life of 90 million
- 87% of persons aged 65 and over have at least one chronic condition; 67% have 2 or more
- 99% of Medicare spending is on behalf of beneficiaries with at least one chronic condition

Partners in Care
FOUNDATION
changing the shape of health care

What is a chronic disease?

- Arthritis
- Chronic lung disease
- Diabetes
- Heart condition
- Cardiovascular disease
- Chronic pain
- Depression
- Cancer
- Stroke
- Any ongoing health condition

Four chronic conditions cause 2/3 of all U.S. deaths annually:

Heart Disease

Cancer

Stroke

Diabetes

New Models of Care are Needed

- Reallocation of existing dollars from care to prevention and promoting health
- Strengthen community and home care – reduce use of institutions
- Reduce fragmentation – increase integration to address chronic diseases

Partners in Care
FOUNDATION
changing the shape of health care

Need to work with whole person, family and community

- Facing complex and fragmented system
- Need to integrate personal care and medical care
- Interdisciplinary team needed
- Fundamental re-design is required – in large, complex system
- Requires a new “utility” of easily available self-care

Partners in Care
FOUNDATION
changing the shape of health care

Building Infrastructures for Health

- Physician offices need to connect to community resources to build health
- Creation of widespread community-based programs to address lifestyle change are needed – especially to manage risks like diabetes progressing, heart disease & falls
- Evidence-based programs are essential

Partners in Care
FOUNDATION
changing the shape of health care

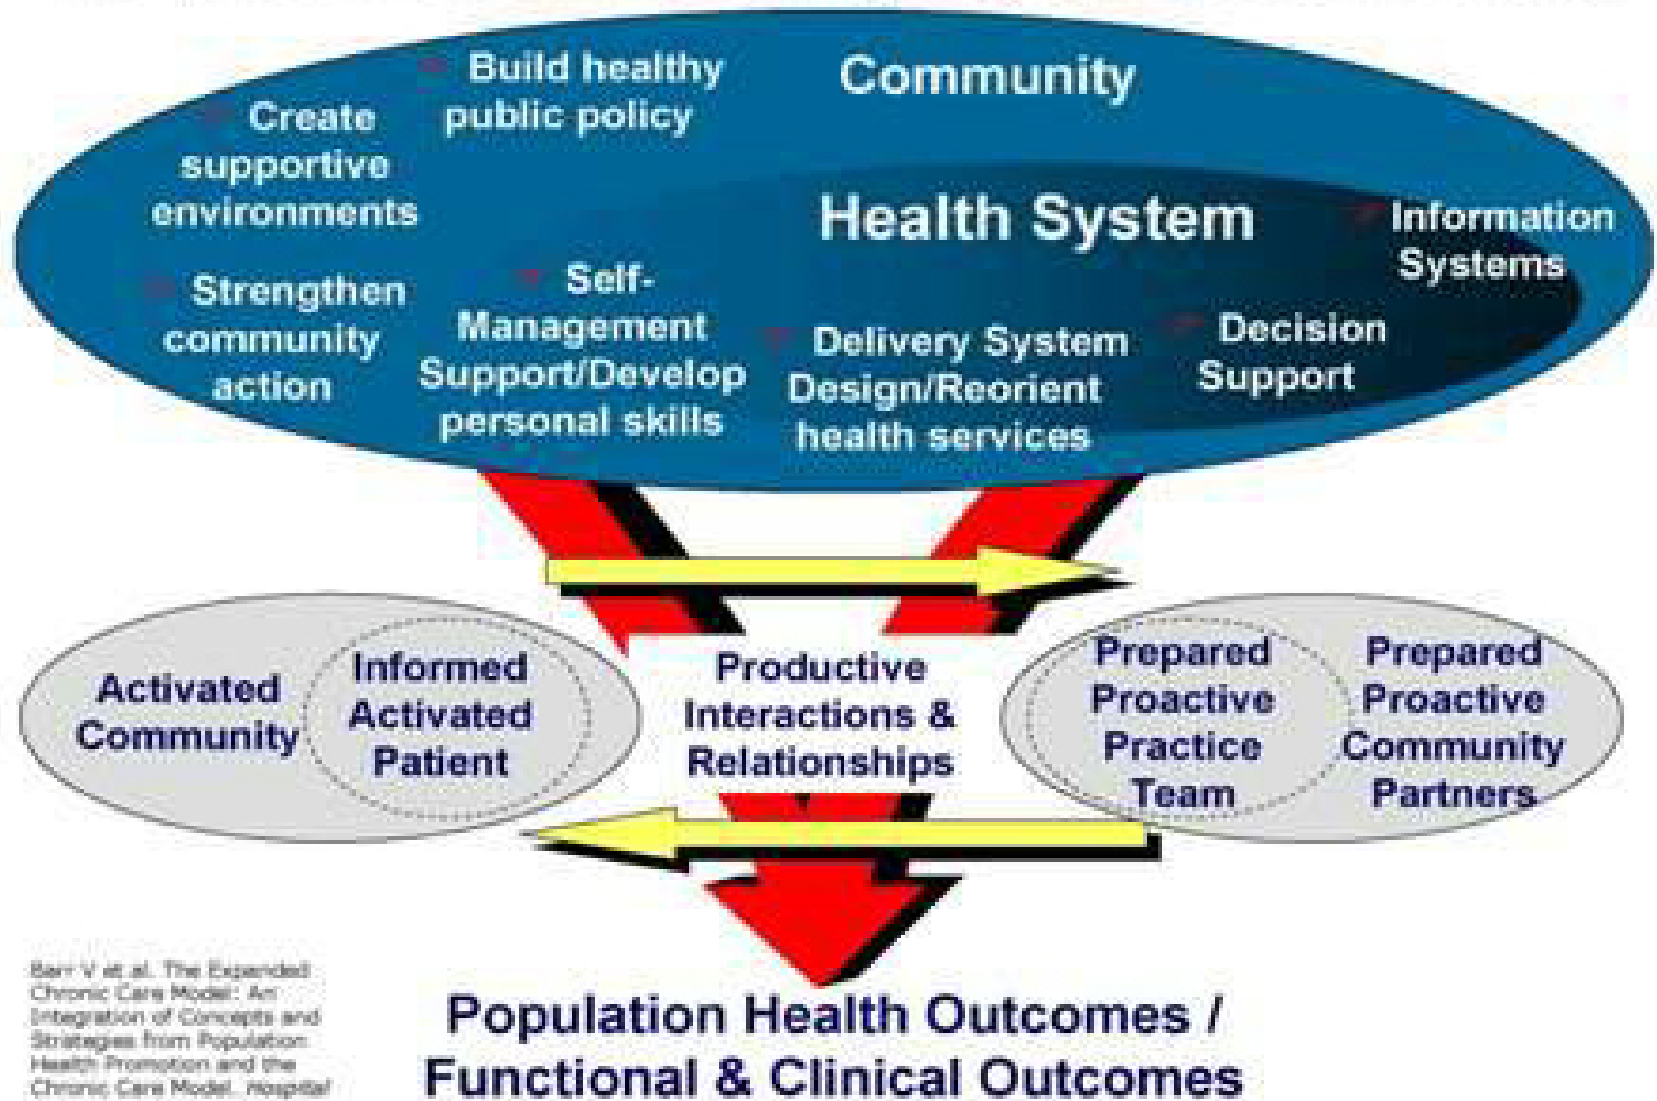

More than new infrastructure

- Need “pathways to health”
 - methods to identify those who will benefit
 - brief methods to open the door to change
 - skills and tools to enhance class completion
 - alternatives available for continuing involvement in healthy lifestyle

The Expanded Chronic Care Model: Integrating Population Health Promotion

Barr V et al. The Expanded Chronic Care Model: An Integration of Concepts and Strategies from Population Health Promotion and the Chronic Care Model. *Hospital Quarterly* 2003; 7(1):73-82

California Evidence-Based Initiative 2006

- California Departments of Aging and Health awarded 3-year grant from Administration on Aging
- Initiative brings evidence-based programming to age-based organizations
- Partners in Care is the state program office, *California Health Innovation Center*

Partners in Care
FOUNDATION
changing the shape of health care

Our shared great cause

- California Departments of Aging and Public Health have designated a non-profit to serve as the program office for the Chronic Disease Self-Management Program
- And future evidence-based health programs

Partners in Care
FOUNDATION
changing the shape of health care

AoA Evidence-Based Programs

- *Matter of Balance*: managing concerns about falls
- *Healthier Living*: managing ongoing health conditions
- Healthy Moves for Aging Well
- *Medication Management Improvement System (MMIS)*

Changing American Culture

- We are in the service of a great vision
 - Mainstreaming access to powerful tools for health
 - Building a platform for better quality of life
 - Less pain
 - Less illness
 - Greater mobility and better function
 - **This is a MISSION, not a PROJECT**

Partners in Care
FOUNDATION
changing the shape of health care

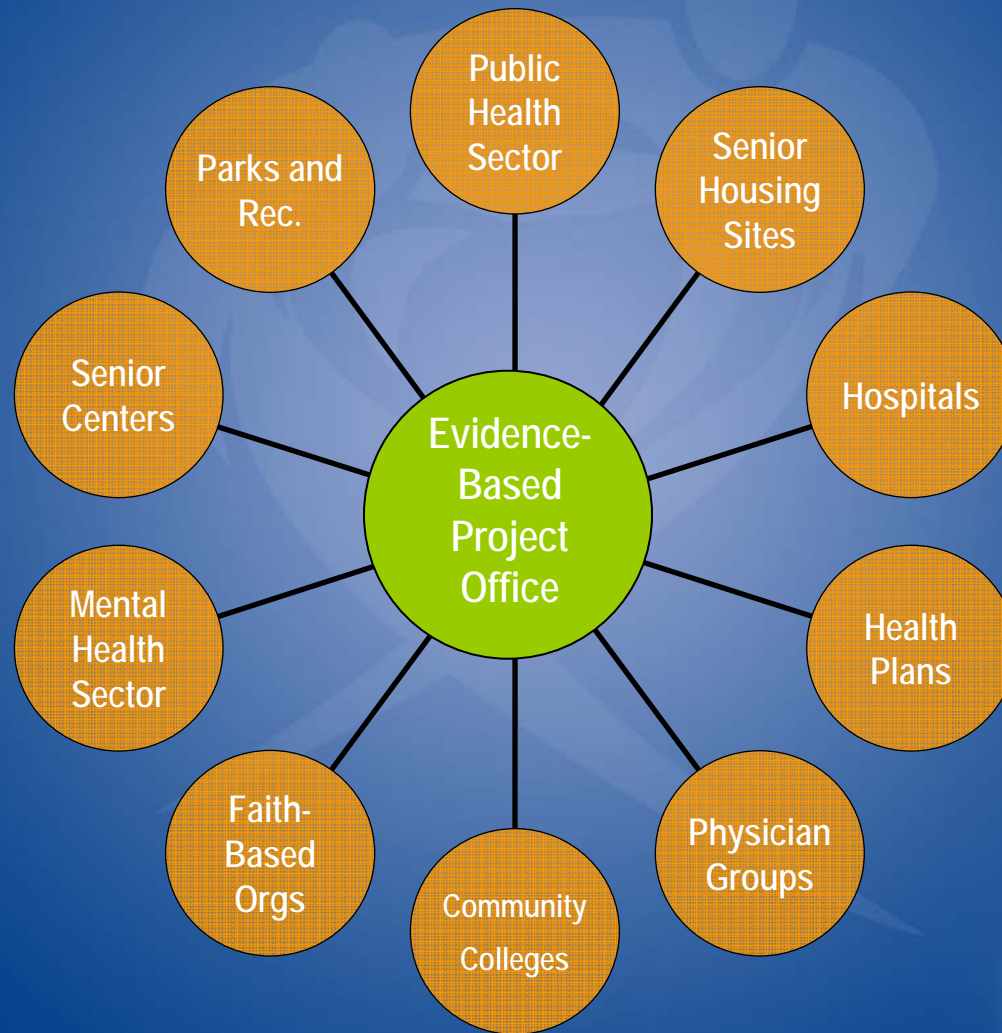

Going to Scale

- This is challenging work that needs to:
 - Reach large numbers of people – a new utility
 - Maintain fidelity
 - Be sustainable/cost-effective and consumer-engaging
- Part of a 24-state national initiative – moving toward a social enterprise

Target Sectors For Adoption / Engagement

Expansion & Sustainability Workgroup

Purpose: Guidance to the CA Depts. of Aging and Public Health to craft a comprehensive expansion and sustainability plan

Health Plans:

Catholic Health Care West
Kaiser Permanente
St. Joseph Health System
Daughters of Charity

Foundations:

Archstone Foundation
UniHealth Foundation
The California Endowment
California HealthCare Foundation
Kaiser Permanente Community Benefit

Education: Community College Educators of Older Adults

Non-Profit: Partners in Care Foundation

Government: Los Angeles County Public Health Department

Business: Pacific Business Group on Health

Partners in Care
FOUNDATION
changing the shape of health care

Examples of partnerships

- Community College Older Adult Programs and K-12 Resources
- Disease-Specific Organizations
- Public Health and Community Clinics
- Physician Groups, especially managed care
- Faith-Based Settings

Partners in Care
FOUNDATION
changing the shape of health care

Kaiser a Vital Partner

- Original research site for Stanford
- System-wide commitment
- Generous community benefit
- Experience with the program

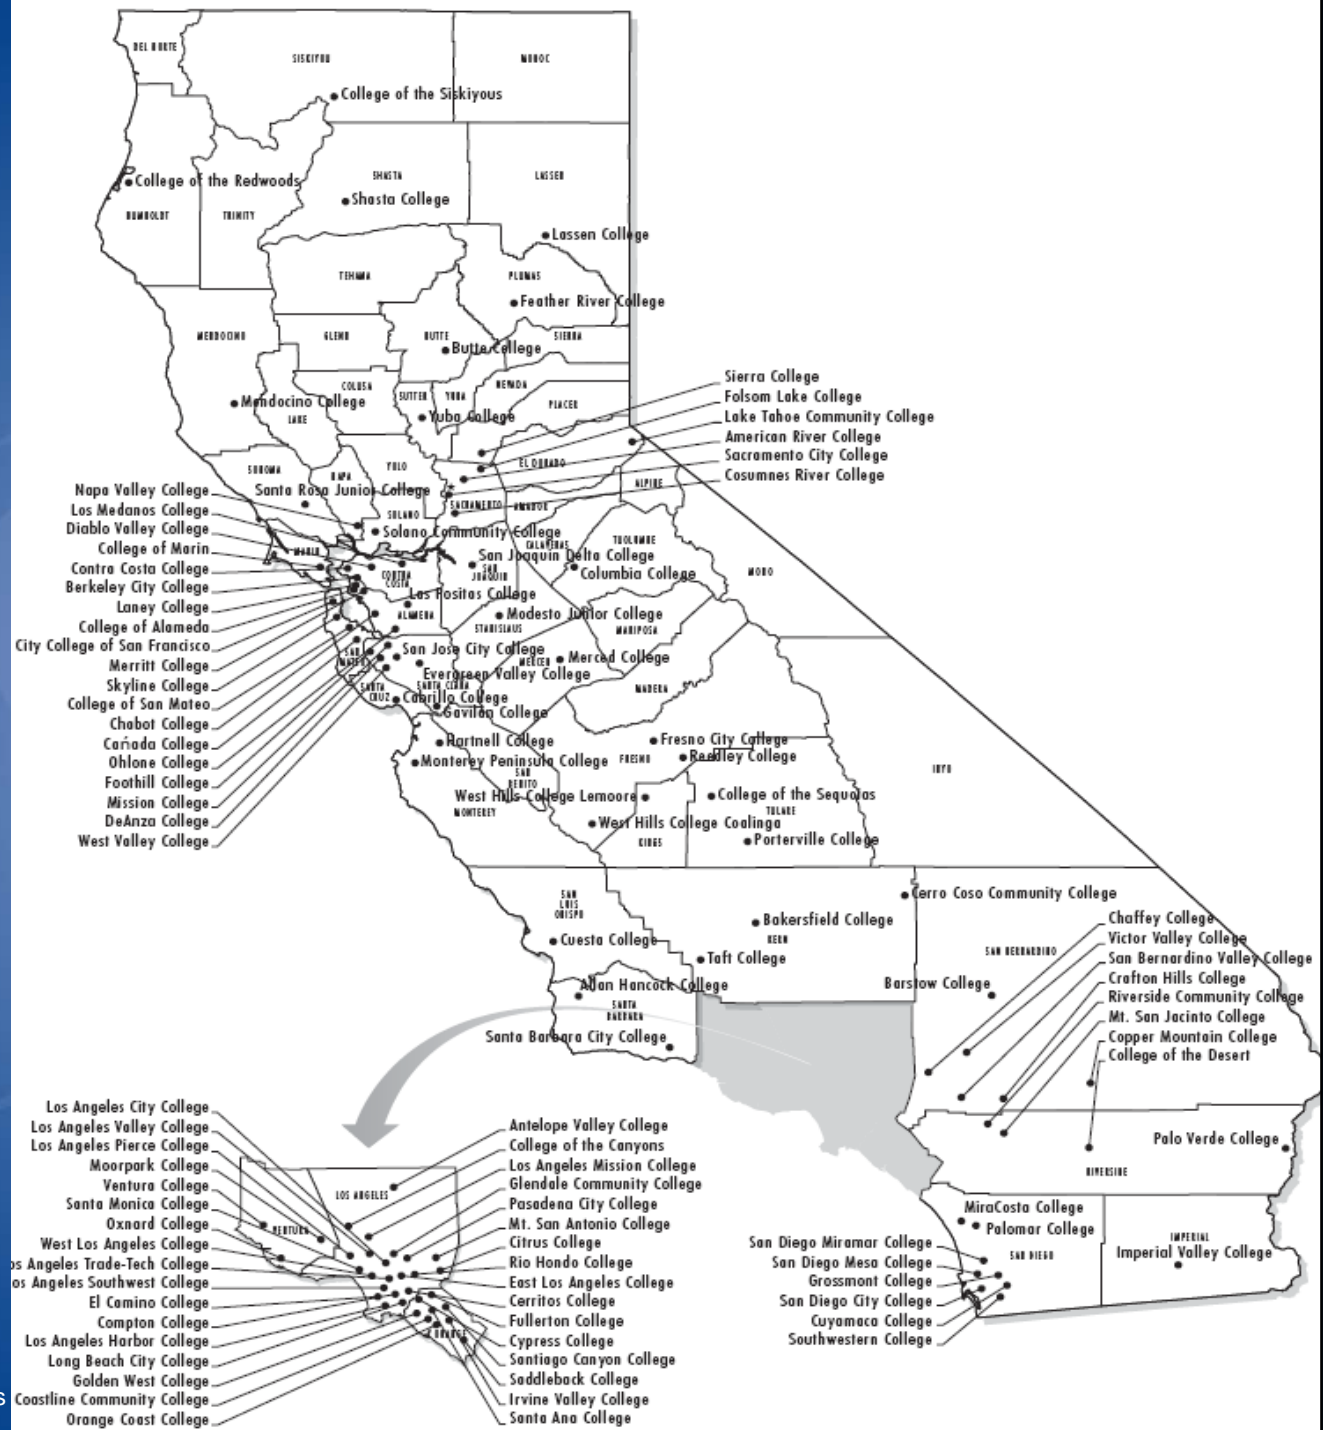

California Association of Physician Groups (CAPG)

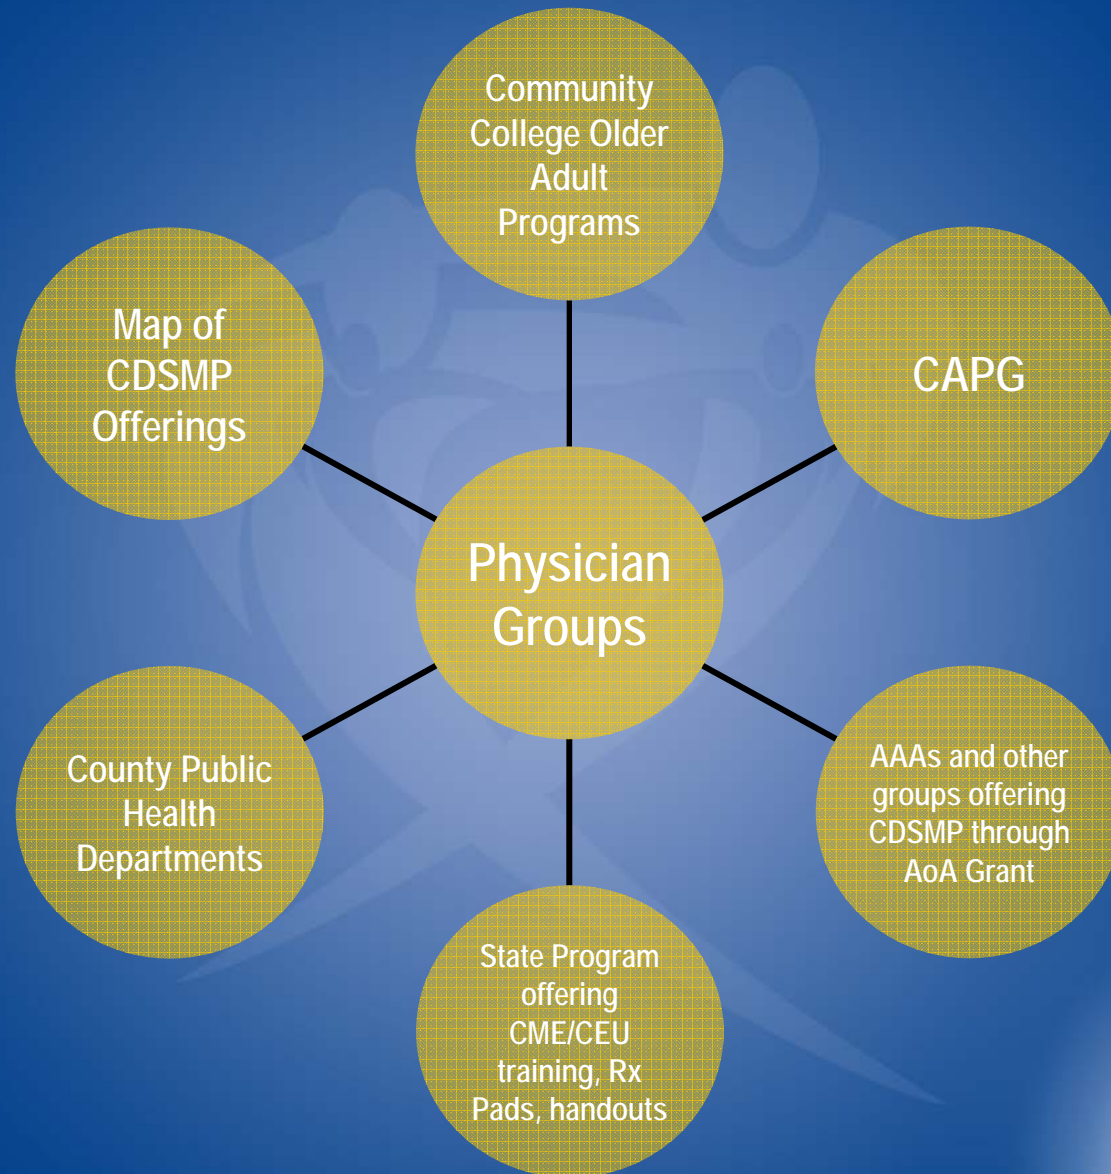

- Nation's largest professional association representing physician groups practicing in managed care
- Represent approximately 150 physician organizations
 - 59,000 Physicians
 - 15 million Californians
- Non-profit committed to the delivery of coordinated, quality, affordable and accessible health care

Partners in Care
FOUNDATION
changing the shape of health care

California's Community College Older Adult Programs

The Partners Model: Adaptation

Take evidence-based practice to new environments, adapt for extended use, disseminate results, begin again with new partners.

Seize the Opportunity

- A time of potential transformation
- Must rise to the occasion
- Going to scale is key
